TechZeen

AI Mobile Engineer

Stop connecting AI to your app with raw API calls.

TechZeen

What Is an AI SDK?

- SDK = Software Development Kit.
- Provides tools to integrate AI into applications.
- Simplifies API calls, responses, streaming and structured outputs.
- Reduces repetitive code.

TechZeen

Why Do We Need AI SDKs?

- Easier AI integration.
- Simplified error and response handling.
- Support for streaming and structured data.
- Less boilerplate code than raw fetch.

TechZeen

Modern AI SDKs

- OpenAI SDK
- Vercel AI SDK
- AI Gateway
- Unified Streaming
- Structured Outputs
- SDK vs Raw Fetch
